

Qifeng Yuan

I am a student of the UM-SJTU dual degree program, majoring in both ECE and IOE. My research interests are computer vision, particularly in AI4S, robotics, and multimodality. In addition, I am also interested in business.

EDUCATION

Shanghai Jiao Tong University

B.S. Electronic and Computer Engineering

Sep 2024 – Aug 2026

- GPA: 3.39

University of Michigan, Ann Arbor

B.S. Industrial Operations Engineering

From Sep 2026

- GPA: N/A

SELECTED COURSEWORK

Computer Science & AI Data Structures and Algorithms (SJTU); Introduction to Computer Science (UM)

Electronics & EE Electronic Circuits (SJTU); Signals and Systems (SJTU); Electromagnetics (SJTU)

Math Linear Algebra (SJTU); Discrete Math (SJTU); Probabilistic Methods in Engineering (SJTU)

RESEARCH EXPERIENCE

AI4Science Large Model Vision Evaluation

Shanghai AI Laboratory

Dec 2025 – Aug 2026

- Compared performance of special and general VLMs across benchmarks in multiple scientific disciplines.
- Compared performance across the same benchmarks under various types of degeneration, simulating real-world noises and equipment limitations.
- Compared performance of recent image restoration algorithms on these degenerations.
- Proposed two new restoration algorithms with respect to Physics and Chemistry.
- Instructors: Prof. Dr. Wenjun Zhang, Prof. Dr. Guangtao Zhai, Dr. Jianbo Zhang, Phd candidate Chunyi Li

Design of an Experimental Magnetic Levitation Linear Motion Platform

UM-SJTU Joint Institute

Sep 2024 – Sep 2025

- Designed analog circuits in LTspice to evaluate performance and validate design feasibility.
- Optimized circuit parameters in MATLAB to maximize output signal amplitude.
- Created circuit schematics and PCB layouts in Altium Designer.
- Instructors: Prof. Dr. Kwee Yan Teh

WORK EXPERIENCE

Teaching Assistant, Introduction to Engineering & Technical Communication

UM-SJTU Joint Institute

May 2026 – Present

- Graded assignments, projects, and exams, providing detailed feedback on students' technical and written work.
- Delivered guest lectures and supported classroom instruction on engineering and technical communication topics.
- Provided individual and group guidance on coursework, facilitated discussions, and supported communication between students and instructors.
- Instructors: Prof. Thomas Bowden, Prof. Dr. Irene Wei

TMT Industry Research, Communications Team

Changjiang Securities Research Institute

Jan 2026 – Apr 2026

- Participated in private sessions and produced 50+ weekly reports, meeting notes, and due-diligence materials.
- Prepared 10+ client-facing materials and 2 in-depth roadshow materials for fund managers.
- Led or contributed to 4 in-depth reports on liquid cooling and data centers.

HONORS & AWARDS

- | | |
|--|------|
| Silver Medal, International University Physics Competition | 2026 |
| <ul style="list-style-type: none">• The physical modeling and analysis of the trajectory and landing point of artillery shells in actual situations. | |
| Honorable Mention, Mathematical Contest in Modeling | 2026 |
| <ul style="list-style-type: none">• Modeling and analysis of passive shading systems in buildings under complex weather and geographical conditions. | |

EXTRACURRICULAR ACTIVITIES

- | | |
|---|------|
| UM Exchange Students Summer Buddy | 2025 |
| <ul style="list-style-type: none">• Supported University of Michigan exchange students during the summer program. | |
| Outstanding Minister, SJTU Global College Students' Union Business Dept. | 2026 |
| <ul style="list-style-type: none">• Contact alumni, professors, company executives, etc., and hold career fairs, workshops, and other activities. | |
